

WINSTON'S CHALLENGE

Our intersection collection fundraiser

Who is Winston?

Winston's Challenge is our Intersection Collection's Fundraiser, in memory of Winston, a courageous rabbit, who stayed with us as long as he could and never gave up, until his condition overcame him. Funds raised by Winston's Challenge intersection collections support our special needs bunnies like Winston in their ongoing vet care. Contact us on 9751 1229 if you can help collect on designated days and locations during the year.

WINSTON'S BATTLE: 6 December 2014

Winston was a special needs bun that battling a tooth abscess that went completely out of control causing severe cellulites swelling, and then a breakdown of the skin. He stayed strong and stoic and continued to eat, take his medications, and have his wounds washed and cleaned a few times a day with weekly visits to the vets to have bandages changed. His struggle went on for nearly 8 weeks. Our vets believed that if he was a different temperament he would not have survived as long. He is very trusting of us in his treatment

RIP WINSTON 25th December 2014

Our courageous special needs bun, Winston chose an auspicious day to start his journey across the Rainbow Bridge. Whilst the world woke on Christmas morning to a day of fun and laughter we cradled him as he slipped from us. His crossing was made easier by our wonderful vet Gerry, the Rabbit Doctor, who left her family early Christmas morning to assist us with his journey. He stayed strong and courageous till the end. RIP Winston: Your courage and strength, your gentle nature and assertiveness served you well and is a lesson to all species that shared the planet with you. You are sadly missed by those that shared your journey.

24th December 2014, Mali sat beside his enclosure, and stayed there keeping him company, she was paying her last respects and letting us know that he was to leave us. Prior to this we were quietly optimistic, that Winston would survive. His original condition was well on the mend, but more abscesses had developed in the last few days, and we suspected they were starting to restrict his airways and it was at this time that he gave up his fight to stay with us. We have establishing "Winston's Challenge" in memory of this strong willed and courageous bunny.
